Submit defects and feature requests on caIntegrator2

While the official channel of defect tracking and feature request, the Bugzilla system, is being set up, the community is welcome to use this ad-hoc feature request/bug tracking page. Please add your entries into either the "feature request" category or the "defect report" category and we will add them into the implementation tracker for caIntegrator2. Please use the guest credential "guest/guest" to log into the caIntegrator2 implementation tracker.

Thank you.
